

COURSE REVIEW FORMS

INSTRUCTIONS ☺

(Please read carefully before filling out the on-line student evaluation)

All students who attend training at an **Autodesk Authorized Training Center** such as **The EKHO INSTITUTE** fill out the course review forms supplied by Autodesk at <http://atcevaluation.autodesk.com>. These forms serve several purposes:

- Provide statistics to Autodesk on ATC attendance and trends.
- Provide constructive feedback to EKHO and ideas on how to improve our courses, facilities and training skills **IF** students choose to provide us with ideas.
 - Examples of past suggestions implemented here over the years:
 - The Robotel Video network. 19" Monitors, Zip disk drives.
 - The toolbar icons placed in all of the drawing exercises.
 - Many hundreds of small refinements to the instructions/exercises.
- Provide Autodesk with information to hand out annual awards to North American ATCs and instructors for training excellence. EKHO has won 14 of these over the past few years competing with US and Canadian ATCs.

BASIC INSTRUCTIONS

1. **Fill in completely** at <http://atcevaluation.autodesk.com>.
2. Put your e-mail (and name) down if you want to get future information from Autodesk.
3. Fill in **all parts of the on-line form**.
4. ATC Instructor ID for Elton: **01943** ATC Site ID: **AM0374**
5. Answer **ALL** questions please.

ADDITIONAL TIPS: ☺

1. **Please provide constructive, practical suggestions** in the Comments box at the bottom, on how we could improve to make any area into a "**Strongly Agree**" **IF** you mark anything with **a lower score**. We need to know how to improve if we are to make it better for future classes. (e.g. If **YOU** owned the school, what practical, affordable things would you do to correct something that you feel can be done better)
2. Fill in at the end of the course, not part way through.
3. **Positive comments about what you like are appreciated** as much as constructive suggestions on what can be improved. ☺
4. Please focus comments on the training issues and facilities as much as possible. We have already heard lots about the coffee! ☺
5. **These are intended as an assessment of our training and not your own performance in the course**. We would like to correct the eternal cycle of weak student = weak review and strong student = strong review.

Thanks very much for your attention and efforts! ☺

Autodesk® Authorized Training Center® Evaluations

- [Printable Version](#) **ATC Evaluation Form : EKHO Institute, The : Elton Hammond**

The personal information and valuable feedback you provide to Autodesk will be used by Autodesk and its affiliates to help monitor the quality of our ATC Partners. From time to time Autodesk may contact delegates directly to verify the responses given in this evaluation form and collect more information about your use of and experience with Autodesk products.

Please tick the applicable boxes if you consent to the processing of your personal data for the additional purposes specified below:

I wish to receive information from Autodesk concerning additional Autodesk Products and Services

I wish to receive information from Autodesk partners concerning Autodesk and/or complementary products and services

I wish to receive information from third parties concerning their products and services
