EKHO Videos & Quizzes Work Magic Together!

HUGE IMPROVEMENT FOR STUDENTS!

EKHO students who take full advantage of EKHO's new Quizzes and Bonus drawings **integrated into the new video menu** have been enjoying a **HUGE** improvement in their learning results. We are seeing tremendously impressive results on their AutoCAD learning curve and exam/quiz results plus great drawing productivity gains.

Amazing Results from EKHO!

DISCOVER NEW TIPS and LEARN NEW TRICKS FAST!

You can find these self-scoring quizzes directly on EKHO's video web site at <http://www.ekhovideos.com/EKHOSQUIZZTITLES.html>.

So boost your skills quickly with this **new and powerful learning and discovery tool**.

In the 18 years that I have been in the AutoCAD training business, this is the most significant change we have made that has had the most profound impact on our student's learning results! Students have been amazing me with their results (shown on the next page) on these quizzes and the fast learning pace they achieve with great drawing skills. The quizzes are packed with feedback & tips on how to improve your weak areas in AutoCAD! Enjoy, discover and learn much more in less time! Leave your peers behind quickly!! Please let us know what you think or experience with this amazing learning method, by phone or e-mail!

EKHO's Video Menu Integrates Quizzes Now!

EKHO INSTITUTE CASE STUDY APRIL 2005:

During the month of April 2005, EKHO's 22 day Deluxe AutoCAD students in our classroom session at The EKHO Institute relied almost exclusively on EKHO's training videos plus newly integrated and wide ranging automated quizzes with amazing results!! EKHO's students have always enjoyed some of the highest exam marks and results in North America, but we have taken this to a whole new level now that brings such joy and delight to a dedicated instructor's heart!!

The chart below tells part of EKHO's incredible success story with positive results via high numbers, but we have also observed some other very positive benefits using our videos and automated quizzes:

1. Provides students with **instant feedback** to improve on their wrong answers.
2. Provides individual students with **instant impartial scoring** when they are ready!
3. Guarantees that every student's **drawing accuracy** is checked 100% every time!
4. Students are running **ahead of schedule** now! Fast students are getting extra practice!
5. Provides students with **scheduling flexibility** when they have other commitments to keep.
6. Provides the instructor with **instant feedback** on student progress with automatic e-mails.
7. Automated quizzes assess a student's **readiness** impartially for the next day or phase.
8. Allows students to progress at **their own pace**, not at the usual slowest student pace.
9. **Frees up the instructor** to coach, motivate and tutor; now identifiable students who need help.
